

Transurfing and the Law of Attraction

Much has been written about the Law of Attraction.

According to it, we all attract into our lives, what we focus our thinking upon. We all work with this power, the one law: The Law of Attraction. Since the dawn of time, it has always existed and will always exist. It rules the entire order of the universe every moment of our lives and everything we experience. No matter who we are or what we do, the Law of Attraction through our thoughts, governs the total experience that shapes our lives. We activate this law through our minds. Past leaders who knew this law, did not want to share this power with the people. The human being lived their day to day, in a powerless routine. Our life is a reflection of our past thoughts. That includes all the good things and all the not so good. *The Law of Attraction, is the great secret of life.*

WHERE THE SECRET AND THE LAW OF ATTRACTION ENDS! THAT'S WHERE REALITY TRANSURFING STARTS.

Transurfing, is not a new method of personal development, but the art of lucid dreaming. Most people are in a deep sleep, even those who think they are awake. Transurfing is a way of thinking and acting consciously, in order to be able to choose what we want.

Transurfing shows you how to play the game and win.

The consciousness of a person determines his whole life. Transurfing principles help us to achieve our aspirations in an easy and effortless way.

Transurfing is a way to choose one's own destiny, literally, like a supermarket product. Once our choice made, that is what we get.

In the various writings about the Law of Attraction the word **asking** becomes very relevant.

When the asking comes from a stand point of certainty and knowledge, then there is no doubt, faith is then pure. For example, I have decided that I will get what I desire; after all, that is what I want, I will get it. On the other hand if the asking lacks these elements, It is not difficult to understand what position wins.

There is a difference between desire and intention, and that is; desire does not exclude the probability of default. If we want something and find it hard to obtain, we begin to want it even more, desire always creates excessive potential (imbalance).

Intention does not believe and does not desire, it simply acts in the direction of the goal.

Transurfing

Nobody forbids you to choose the destination of your liking. Getting to the destination, boils down to something very simple: make the choice. Transurfing answers the question "how?"

Coordination of intention, is the simplest way to act, so that the wave of success is always on your side. The power of choice.

The general rules governing the concept of Reality in Transurfing can be formulated as the "seven principles of the mirror."

- The world is like a mirror, it reflects your attitude.
- The reflection is formed by the unity of the soul and mind.
- The dual mirror reacts in delay.
- The mirror reflects the attitude of a person and ignores direction.
- Do not think about what you do not want, instead fill your mind with what you aspire to achieve.
- Release control and let the world guide you in the flow of variants.
- Perceive all mirror reflections as positive, always for the better.

Knowledge can be obtained by reading the books, but without the practical application, it is lost over time. Therefore, the next step would be to practice the knowledge acquired and eventually integrate it into your life, step by step you will get to know the SUBTLE difference between desire, intention, importance, EXCESSS and subconscious resistance to allowing the flow of Love Joy and Abundance to come to you.
